

What is C.A.?

Cocaine Anonymous is a Fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others recover from their addiction.

The best way to reach someone is to speak to them on a common level. The members of C.A. are all recovering addicts who maintain their individual sobriety by working with others. We come from various social, ethnic, economic and religious backgrounds, but what we have in common is addiction.

The only requirement for [membership](#) is a desire to stop using cocaine and all other mind-altering substances.

Anyone who wants to stop using cocaine and all other mind-altering substances (including alcohol and other drugs) is welcome.

There are no dues or fees for membership; we are fully self-supporting through our own contributions.

We do ask for voluntary contributions at meetings to cover expenses such as coffee, rent, literature and services to help those who are still suffering. However, newcomers need not feel

obligated to contribute. We do not [accept](#) donations from organizations or individuals outside the Fellowship.

We are not allied with any sect, denomination, [politics](#), organization or institution.

In [order](#) to maintain our integrity and avoid any possible complications, we are not affiliated with any outside organization. Although C.A. is a spiritual program, we do not align ourselves with any religion. Our members are free to define their spirituality as they see fit. Our individual members may have opinions of their own, but C.A. as a whole has no opinion on outside issues. We are not affiliated with any rehabs, recovery houses or hospitals, but many do refer their patients to Cocaine Anonymous to maintain their sobriety.

Our primary purpose is to stay free from cocaine and all other mind-altering substances and to help others achieve the same freedom.

The only purpose of Cocaine Anonymous is to offer [recovery](#) to individuals who are suffering from addiction. Our experience has shown that the most effective way to attain and maintain sobriety is to work with others suffering from the same malady.

We use the Twelve-Step recovery program because it has already been proven that the Twelve-Step recovery program works.

The Steps of C.A. are adapted from the original Twelve Steps of Alcoholics Anonymous. The Steps of Cocaine Anonymous read:

1. We admitted we were powerless over cocaine and all other mind-altering substances—that our lives had become unmanageable.
2. Came to believe that a Power greater than ourselves could restore us to sanity.
3. Made a decision to turn our will and our lives over to the care of God *as we understood Him*.
4. Made a searching and fearless moral inventory of ourselves.
5. Admitted to God, to ourselves, and to another human being the exact nature of our wrongs.
6. Were entirely ready to have God remove all these defects of character.
7. Humbly asked Him to remove our shortcomings.
8. Made a list of all persons we had harmed, and became willing to make amends to them all.
9. Made direct amends to such people wherever possible, except when to do so would injure them or others.
10. Continued to take personal inventory and when we were wrong promptly admitted it.
11. Sought through prayer and meditation to improve our conscious contact with God *as we understood Him*, praying only for knowledge of His will for us and the power to carry that out.
12. Having had a spiritual awakening as the result of these Steps, we tried to carry this message to addicts, and to practice these principles in all our affairs.*

...And All Other Mind-Altering Substances

STEP ONE: We admitted we were powerless over cocaine and all other mind-altering substances—that our lives had become unmanageable.

TRADITION THREE: The only requirement for C.A. [membership](#) is a desire to stop using cocaine and all other mind-altering substances.

Many people come to Cocaine Anonymous thinking one of two things: “I rarely (or never) even used cocaine. I don’t think I belong here,” or “What exactly does the ‘and all other mind-altering substances’ part mean? I came to Cocaine Anonymous because cocaine had become a problem in my life.”

Those of us who have been C.A. members for a while have heard questions and statements like this before; perhaps the words were even our own. Over time, virtually every single one of us has realized that our real problem is not cocaine or any specific drug, it is the disease of addiction.

Some of us never even used cocaine. Some of us used a variety of drugs, and for others it was combining cocaine with alcohol and/or other drugs that got us into trouble and made our lives miserable. Many of us rode drug roller coasters; there were drugs to come down with, drugs to go up with, and drugs to mellow out with.

During those times we attempted to regain [control](#) we found that any substitution or new combination inevitably created the same result. It was hard to stop and easy to get started. Experience after experience revealed that substitution was no cure. If our bodies were not absolutely free of drugs and alcohol, the obsession to use more of something was always lurking.

For example, imagine that you have just run out of one drug and cannot get any more. What would you use for a substitute? Alcohol for heroin, methamphetamine for cocaine, prescriptions for whatever, vice-versa—the list could go on and on and it really wouldn't matter. The point is that addicts like us soon find ourselves unable to stop using the substitute. Whatever drug we use, the problem of not being able to stop resurfaces, often bigger than before.

At some point we finally realize that we cannot control our use of any mind-altering substances. The problem isn't the drug of choice; the problem is the disease of addiction. With its Third Tradition and all-inclusive First Step, Cocaine Anonymous welcomes anyone with a drug or alcohol problem and offers a solution.

ALCOHOL AND MARIJUANA

Marijuana is a potent drug, and alcohol is a mind-altering chemical in liquid form. Many people don't realize that these are no different from any other drugs regarding the potential to get us into trouble. One drink is never enough; just as one puff, hit, fix, bump, pill or snort is never enough. We are masters at combining and substituting one drug with another to get high.

Has getting drunk or loaded ever been the unintentional result of "just" one drink or "just" a beer? Have you ever experienced the consequences of impaired judgment or decision-making ability as a direct result of smoking "just" a little pot? Did one of anything ever lead to two or three or more of something harder or stronger?

Many of us never thought that alcohol and/or marijuana were part of our problem, but upon honest examination and working the Steps, we usually find a need to re-evaluate that notion.

PRESCRIPTION DRUGS

The use of prescription drugs may be medically necessary at times. However, old patterns of thinking influenced by the presence of a mind-altering substance in our system can soon have us convinced that we need to take it more frequently than prescribed. An informed prescribing physician, placing our medication in control of someone we can trust, and honest communication with a sponsor or another recovering addict can be helpful in preventing abuse.

Our bodies and minds don't know the difference between drugs used for legitimate reasons and drugs used for recreational pleasure. It's a sound practice to enlist the support of all of our

physicians and/or mental health care professionals in continuing on the path to [recovery](#). Abruptly stopping the use of tranquilizers, [antidepressants](#) or other prescription drugs can be dangerous and even deadly, and should only be done under the guidance of an informed physician.

OVER-THE-COUNTER AND COMMONLY USED LEGAL DRUGS

Over-the-counter and other legal drugs (such as cough syrups or pain relievers that contain alcohol and/or codeine, diet pills that act as stimulants, and antihistamines that act as depressants) can be just as big of a problem for us as street drugs. We suggest that you become a label reader. There are many products on the market that can be dangerous to an addict who has the potential to abuse just about any mind-altering chemical.

Uninformed addicts can be a hazard to themselves and others. We encourage you to ask your doctor or pharmacist if you have any questions regarding medications. Be honest with your sponsor about what drugs you take or are prescribed to you.

Remember, we're powerless over cocaine and all other mind-altering substances. Step One is a beginning, but be sure to move forward. A spiritual awakening as the result of working all Twelve Steps is the solution to the problem of addiction.

SO WHAT DOES "... AND ALL OTHER MIND-ALTERING SUBSTANCES" MEAN?

It means that it is the collective experience of the members of Cocaine Anonymous that addiction is a problem not limited to any one substance. It means that C.A.'s Twelve Steps are not drug-specific, and that Cocaine Anonymous is not a drug-specific Fellowship. It means that it doesn't matter to us if you drank or what type of drugs you used; if you have a desire to stop, you are welcome here!
